

## Inauguration of our new manufacturing-plant

On the 20th of October we celebrated the inauguration of our new production-plant with an open-house day and a party for the families.

Under the motto „building for our customers“ we built a new hall of about 1000 m<sup>2</sup> which provides very friendly conditions to our manufacturing staff.

We have built new, up to date workstations in the new manufacturing-plant which is another investment in the future.

According to the motto „There is nothing good - unless you do it“ the revenue of the whole day went to the children's-cancer-clinic in Tannheim / Germany.

This was a proud day for Hermann Medizintechnik and it turned out to be a great success.

Medica 2007 in Düsseldorf / 14th - 17th November

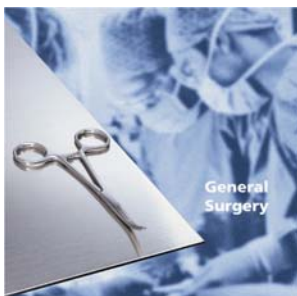

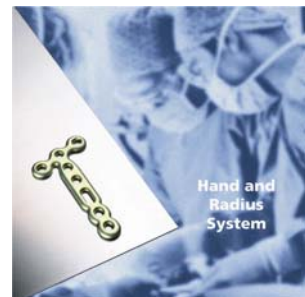

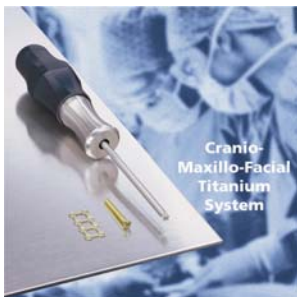

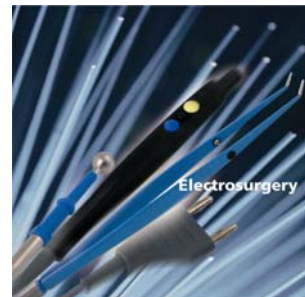

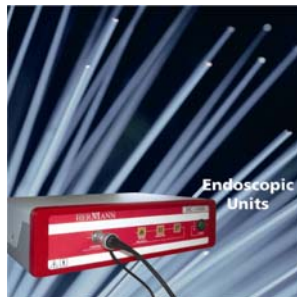

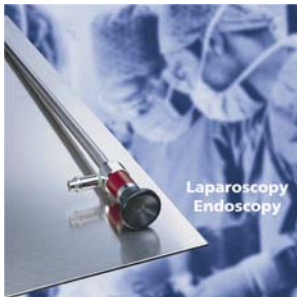

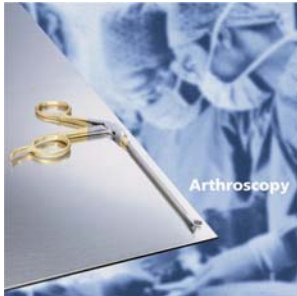

Despite the strike of the railway Medica kept the niveau of the last years. Around 137.000 visitors from about 100 countries visited the show on the four days.

For Hermann Medizintechnik it was again an interesting and successful event.

According to our principle precision, innovation and service we focussed this year on the ranges of laparoscopy, titan-implant-systems and plastic surgery. Three product ranges from our complete program which are state to the art and were very well received.
